SKILLS

- ❖ **Languages & Programming:** C, C++, Java, HTML, CSS, JavaScript, Node.js, Python
- ❖ **Databases & Backend:** MongoDB, MySQL, REST APIs, API Development
- ❖ **Web Development:** Responsive Web Design, Bootstrap, Tailwind CSS, Frontend (HTML/CSS/JS), DOM Manipulation, React, Next.js, Redux
- ❖ **CS Fundamentals:** Data Structures and Algorithms, Computer Networks, Operating Systems, Object-Oriented Programming (OOP)
- ❖ **Systems & Tools:** Git, GitHub, Docker (basic), Render, Postman

EDUCATION

- ❖ **B.Tech in Computer Science Engineering**
Amity University, Greater Noida **CGPA: 9.29** (2023-2027)
- ❖ **XII**
Shri Dronacharya Rameshchand Vidyawati Convent School **94%** (2022)
- ❖ **X**
B D R D Saraswati Vidya Mandir Inter College **87%** (2020)

PROJECTS

- ❖ **QuickCrave — AI-Powered Real-Time Food Delivery Platform**
Developed a scalable AI-powered food delivery platform with real-time order tracking, live GPS synchronization, WebSocket communication, and Redis-based caching for optimized performance. Integrated an AI chatbot with JWT-secured authentication, conversational food ordering, dynamic menu retrieval, and real-time order status updates. Engineered a role-based asynchronous system with live monitoring dashboards, heartbeat monitoring, GPS throttling, RBAC security, automated order lifecycle management, and ETA prediction algorithms. | [Live Project](#)
- ❖ **Scatch – E-Commerce Website**
Developed a scalable e-commerce platform with JWT-based authentication, advanced product filtering, secure Razorpay payment integration, interactive cart management, and responsive UI optimization. Implemented role-based admin modules for product, coupon, order, and user management with image upload handling, customizable product theming, real-time order tracking, and optimized checkout workflows. | [Live Project](#)
- ❖ **TaskFlow — Collaborative Project & Workflow Management System**
Developed a collaborative project management platform with secure authentication, RBAC, and project-level permissions. Built a real-time Kanban workflow with drag-and-drop task management, assignments, priorities, deadlines, and file attachments. Enabled seamless team collaboration through Socket.io-powered real-time updates, notifications, comments, activity tracking, and scalable architecture. | [Live Project](#)

CERTIFICATE

- ❖ **Oracle Cloud Infrastructure 2025 Certified Foundations Associate**
[View Certificate](#) | [View Badge](#)
- ❖ **Backend Development and APIs Certification – freeCodeCamp (2025)**
[View Certificate](#)
- ❖ **Oracle Cloud Infrastructure 2025 Certified Developer Professional**
[View Certificate](#) | [View Badge](#)

ACHIEVEMENTS

- ❖ Solved 140+ Data Structures and Algorithms problems on LeetCode, demonstrating strong problem-solving skills and proficiency in algorithmic thinking.
- ❖ Collaborated effectively in team environments, contributing to code reviews, shared development tasks, and agile workflows to deliver high-quality solutions.
